Profile Summary

A dedicated and results-driven Bachelor of Computer Applications (BCA) graduate with a solid foundation in computer programming, software development, and database management. Skilled in programming languages such as Java, C++, Python, and web technologies like HTML, CSS, and JavaScript. Experienced in developing and maintaining software applications, troubleshooting issues, and optimizing system performance. Possess strong problem-solving abilities and a keen interest in learning new technologies. Seeking to leverage my skills in a challenging role to contribute to organizational success while enhancing my expertise in the field of information technology.

Career Objective

As I am studying with a Bachelor's degree in Computer Applications, I am eager to apply my technical skills in software development, programming, and IT solutions to contribute to the growth of a forward-thinking organization. I possess a strong foundation in coding languages like Java, C++, and Python, along with expertise in database management and web development. I am looking for an opportunity to enhance my skills in a dynamic work environment, where I can contribute to innovative projects while continuously learning and growing within the field of information technology.
